CLASS OF 2002

2002 Yearbook Dedication

Mr. Charles Flahive

The year was1957
Dwight D Eisenhower was reelected president of the Unites States It was the most explosive year of the Baby Boom, with 4,300,000 births The Cold War was in full swing Court Enforced School Segregation was enacted when the Arkansas National Guard is called in to block black students from entering Little Rock's Central High School U.S.S.R. shocked the world and especially the U.S. with the launch of Sputnik I, and soon after Sputnik II The average salary for Americans was $4,200, a movie costs 75 cents, and a Corvette lists at $3,500 The Brooklyn Dodgers move to Los Angeles, Ted Williams is the American League batting champ with a .388, and Mickey Mantle and Hank Aaron baseball cards are the hot item. Fads include Hula Hoops, Frisbees, bowling, Silly Putty and Slinkies The look was poodle skirts, saddle shoes, rolled-up white socks, and raccoon coats
"Leave It to Beaver" was on the TV sets, Top 40 was on the airwaves with such greats as Elvis Presley and such hits as "Hound Dog", and people swarmed drive ins to see "Attack of the Crab Monsters." And Charles Flahive was a young man of 20, not much older then we seniors, starting his career at Westwood High as a business teacher. He would go on to teach not only this but English and social studies as well. Then in 1985, when we seniors were still in diapers, he moved up to the position of vice-principal. Finally in 1995, as we took on the role of middle schoolers, Mr. Flahive took over the role of principal of Westwood High.
And now, in 2002, as we seniors prepare to leave Westwood High School, so does Mr. Flahive. You know him as the one doing announcements in the morning, and if you're near the office you had better be standing for the pledge. You know him as the only person in the school last year who dressed up for cowboy day, complete with boots, leather vest, and ten-gallon hat You know him as the one on the ice with the hockey team, on the parquet with the basketball team. You know him as the feeling of dread you have when you are caught leaving school, because it is him that you have to face tomorrow at referral. You know him as the first Spring Fling King, and officer Crumsky. You know him as the one who always has his door open, always ready to remedy a problem, listen to an idea, or throw his support behind a project.
And now as we seniors head off into the world, so does he. Movie Prices have gone up significantly, poodle skirts are worn only on Halloween, and "Leave it to Beaver" has become a rerun. It's with our greatest pleasure that we dedicate the 2002 yearbook to Mr. Charles Flahive. We wish him luck and success in all of his pursuits; Westwood High will always hold a special place in its heart for him.

Principal's Message

My congratulations to a truly outstanding class. In addition to being a wonderful and caring group of individuals, you have achieved not only in the classroom but also on the field of athletics and in numerous extra-curricular activities. I sincerely appreciate being included in so many of your activities in such a special way. You have indeed made my final year at Westwood High School a year of wonderful memories and accomplishments. I appreciate so many of you who have stopped by over the past few years to thank me for being a part of your high school experience. However, I can assure you that I have received much more than I could ever have given.

Westwood High School has prepared you well for whatever endeavors and pursuits you may choose in the future. We feel confident that you will remain focused and enjoy your post high school years whether they are in education, the military, or the business field. As I noted in my graduation remarks, don't be afraid to dream and dare to make those difficult choices you will find that nothing is impossible and you will accomplish more than you could ever imagine. Stay focused and beware of that old adage "could've, would've, should've. Have the courage to dream, explore, and discover. Take those risks and remember that you possess the tools and the courage to move forward and succeed.

I am extremely proud that I have been a part of your achievements and activities over these past four years. I have seen tremendous growth in every one of you and proudly observed your many successes. I wish you all the very best of luck in the years to come and again remind you to accept those challenges that lie ahead, don't be afraid to dream, and remember that you can never have too much passion for achieving your goals in pursuing a life filled with love and happiness. I wish you all many years of good health and happiness and urge you to cherish your memories and preserve your friendships. Please keep in touch!

Guidance

Since that first meeting in the auditorium freshman year, the guidance department has proven again and again how truly important it is to each and every student at Westwood High. From freshman year onward students have sought the support of their guidance counselors in personal, academic, and extracurricular areas. When we were each presented with that brightly-colored, two-pocket folder in the middle of junior year and the great college process began, the true value of the guidance department became once again apparent. From that initial list of colleges, to recommendations, and even stamps, we each survived the college process due to the ceaseless support of our guidance counselors. The class of 2002 is forever indebted to our wonderful guidance department including Ms Carol Armstrong, Ms. Mary Levangie, Mr. Thomas O'Connor, Ms. Lynne Medsker and Guidance secretary Mrs. Kathleen Hayes.

Nancy Cauley

The class of 2002would like to thank the office staff for all its help! Whether we needed a dismissal pass, forgot our lunch, or arrived late to school, a trip to the front office was always a pleasant one. Mrs. Judy Dick and Mrs Nancy Cawley made certain we got our messages and handled the frenzy of activities with ease. The class of 2002 thanks the dedicated people who have kept the school running smoothly. We also thank Patti Andrews who serves as secretary for Ms. Parks and Mrs. Cassandra MacDonald, secretary to the principal whom we could not live without. The class of 2002 thanks you.

Science & Technology

Dr. John Griffin
Science Department Chair

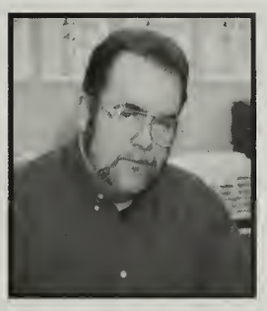

The Science and Technology department provided a variety of courses designed to prepare us for our future. High enrollments in science and the technology classes each year reflect many interesting and enjoyable course experiences including environmental studies of the behavior of the Great Blue Herons at Lyman's Pond, the spectacular release of energy in the chemistry lab from burning gummy bears, building the comfortable Adirondack chairs and 3-D model construction of homes, sodium exploding in our chemistry class sending water and flames into the ceiling, dissections of a variety of species including cats, the miniature aluminum foil boat building contest and follow-on races with mouse trap powered cars in physics and the use of computers to expand our understanding of what occurred in science experiments. Special thanks to Kelly Dunbar who took the place of Mr. Grover for the last two terms.

Westwood High School's English Department consists of a group of dedicated professionals who love to share their passion for language, literature, and writing. These teachers, led by Dr. Terrence Earls, succeed in helping students better understand themselves and the world around them.

Students entering Westwood High are enriched by two courses freshman year, Freshman English as well as Reading. After full-year courses sophomore and junior years, as well as Oral English with Mrs. Kelsch, students may select from a number of stimulating courses senior year, including Creative Writing, Humanities, youth in the Twentieth Century Literature, and two AP English courses.

The English Department expects much from its students. As a result of the high expectations and the talent of the teachers, students do exceptionally well on English assessments ranging from MCAS to SATs and AP tests. Students returning from college invariably remark on how well Westwood High had prepared them for the rigors of college writing. We extend our sincere thanks for the knowledge and skills the English teachers have so enthusiastically imparted to us.

Dr. Terrence Earls
Department Chair

Social Studies

This social studies curriculum is based upon the assumption that a democratic society depends upon knowledgeable, productive, and responsible citizens who make rational decisions consistent with basic democratic values. Our primary objective is to teach young people to think critically, creatively and independently; and, to that end, we seek to provide them with the knowledge, concepts, and inquiry skills of the social sciences and history.

The Westwood High School Social Studies Program should enable students to become proficient, critical, and creative thinkers and problem solvers with respect to human issues past and present. The K-12 Social Studies program provides students with a consistent and cumulative learning experience, which ties curriculum themes to real world experiences.

As we enter the new millenium the Westwood High School Mathematics Department is continuing their efforts to improve the offerings available to students. During a student's four-year stay at Westwood High, WHS students are offered a comprehensive program in mathematics with a focus on developing life long learning skills as well as college preparatory skills. New courses and new approaches have been added to courses from Geometry to Calculus, from Algebra to Statistics - clearly the mathematics curriculum at WHS offers a variety of courses for students to learn about and to learn to enjoy mathematics.

As our society becomes more and more dependent on technology, the demands on students who enter college or the workforce to understand mathematics becomes even more critical to their success. We are fortunate to have a talented mathematics faculty who provide not only the fundamental concepts, but who enjoy providing those "real world" extensions of the theory to help students understand and master those difficult concepts.

World Languages

Chaired by Mrs. Deborah Roberts the Westwood High School World Languages department offers courses in French, Spanish, and Latin. These courses provide students with opportunities to not only learn how to speak, read, and write a foreign language, but also to better understand the cultures of the peoples who speak these languages. World Language teachers strive to impart their love of language and culture to their students in hopes that students will one day feel comfortable applying their language skills in real world situations.

Media Center

Westwood High School's media center has undergone many exciting changes over the past year. Beginning with a computerized book check out system, and many on-line research sources the media center is rapidly moving into the twenty-first century. The best new addition to the media center is still the new laptop lab. Many teachers have utilized this laptop lab to offer multimedia learning experiences to their classes. Mrs. Kristen Sloan continued this year as our technical expert, and her knowledge and experience have enabled us to benefit fully from our new resources. Offering everything from Internet access to just a quiet place to study, the media center has been a valuable resource for every student.

Visual and Performinf Arts

James Giurelo
Music Dept Chair

Diane Kaiser
Art Dept Chair

The Visual and Performing Arts Department of Westwood High School allows students to enjoy a variety of classes ranging from acting to ceramics. Mr. Giurleo and Ms. Wills lead an enthusiastic music and theater program. Every year the Performing Arts Department puts on two major shows, and the students from band, chorus, jazz band, and jazz choir perform in two impressive concerts. In addition Ms. Kaiser, Art Department Chairperson runs a successful as well as challenging art program. Their art and ceramics students create projects and display them all year long. Thanks to the dedication of our performing and visual arts teachers, the students of Westwood High School have learned valuable lessons and had experiences that they will remember with pride for the rest of their lives.

Business and Technology

For some students Westwood High School's Busi ness and Technology Department is one of the most important specialized areas of education in the school. This department provides students with skills that can be used in the business and industrial worlds. Computer Applications, Accounting, Principles of Law and the Justice System are among some of the courses offered in the business department. The Industrial Arts Department, directed by Charles Kacamburas, offers classes in wood-working, architectural design and graphic arts. These courses have provided numerous valuable life skills for many students at Westwood High.

Wellness and Athletics

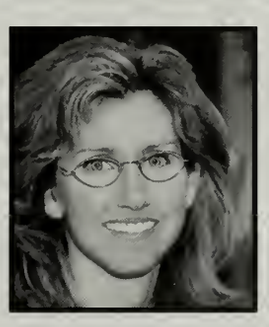

John Palmer
Athletic Director

Judith Wine
Physical Education Chair

Wellness and Athletics represent an important part in the total education program of Westwood High School. The wellness and athletic activities in which students participate are determined by the season, student choice, and the health portion of the curriculum. Both wellness and athletics play a role in the social, mental, physical, and emotional development of the students, as well as providing important leadership and sportsmanship opportunities. This year Westwood welcomed a new Athletic Director Mr John Palmer.

Headed by Dr. Robert Fanning the Special Services Department has always provided support for students. Teachers in the Learning Center give individual attention to each student, contributing to many students' academic success. Also included under Special Services are school nurse, Karen Poreda, and school psychologist, Kristen Corcoran. Both have worked to provide a healthy environment for all students. The wonderful staff from the Special Services Department has helped to provide a comfortable and encompassing high school experience for every student at Westwood High.

"If you don't double-click me, I can't do anything." "John Arpton" I am found in mostly Rm. 21 during free blocks and for a class during the day. I am also on occasion found in the upper media or the library. I do many things as activities for school and one of them is that I do the lights to the play and play chess. One of the memorable memories that I remember was when there were pigs in the courtyard which I thought was very funny. I also remember the good times of teching the play and how much fun I have and all the stuff that happens when no one is seeing what goes on behind stage.

Clubs and Activities

Academic Decathalon

Academic Decathlon is an interscholastic academic competition. Students discuss a range of topics including literature, mathematics, science, social studies, art and music in preparation for a league competition that qualifies for state and national competition. Students compete for individual medals in specific categories or for team medals in the Superquiz category.

Amnesty International

Amnesty International is a group dedicated to human rights' issues in America and abroad. This year, Amnesty members went to the Amnesty Northeast Regional Conference at Boston University and Human Rights Day Wirte-athon in Boston. Several pizza party/write-athons were also held at the officers' houses.

Drama Club

Drama Club is really fun! We do a play at the beginning of the year, known as "After Dinner Theatre." Around the middle of the year, we do "Kids on the Block," a really fun production using puppets, which we put on for children. Toward the end of the year, we sometimes do another production.

Dance Team

The Dance Team is a non-competitive group that performs for the school and at sporting events. Three student captains who also choreograph routines for the group run it.

Clubs and Activities

Chess Club

Come play chess with the chess team and have a challenging game with a local chess master. You do not need to know how to play chess to join the group. We will teach you in a relaxed and fun atmosphere.

Ecolibrium

Ecolibrium is a club that is concerned with environmental issues. This year, activities included a fund-raising sale of Humani-tee's products to raise money to purchase conservation land, a popular dance with recycled decorations and student DJ's, "write-athons" where we wrote about environmental and animal issues and a trip to an Earth Day fair in Worcester.

Elna

ELNA is a great club that stands for Education and Leadership for a Nonviolent Age. This club advocates tolerance and understanding for differences. Students who participate in ELNA have the opportunity to attend conferences and various activities that bring together students from many communities to talk about and discuss issues facing teenagers in high school today. ELNA is a club that meets regularly and addresses topics with the hopes of spreading tolerance and understanding.

Legislative Council

The Legislative Council plays an essential role in the WHS community. Serving on the Council is an elected position, but the meetings are open to non-voting students and faculty members. The job of the Council is to review and revise the existing legislation. In addition, to modifying the current governing documents, the Council accepts and reviews new proposals and eventually takes them to a school-wide referendum.

Clubs and Activities

Student Advisory Board

Student Advisory Board consists of a group of elected students. The mission of the group is to respond to student issues and present them to Legislative Council. Once a year the group sponsors a Social Awareness Weeks which consists of speakers and presentations of interest and concern to high school students.

Judicial Council

Judicial Council models a common jury. If students feel as if a faculty member has disciplined them unjustly they may appeal to the Judicial Council. The Council tries the student's case. The Council's decisions are generally accepted and respected; however, in all cases the principal has the option of vetoing any decisions. Judicial For one to join the Council, he or she must be elected by their class.

Student Council

Student Council is an organization that plans events and charities for the school and community. We are in charge of the events during Homecoming week and for Spring Fling. We are involved with a lot of school activities and social events. Student Council is a fun organization to be a part of and we have a great time. Student Council is an elected office. Elections for ninth graders are in September.

We The People

We the People is a newspaper specifically of school government, including the happenings of the Judicial Council, Legislative Council, Student Advisory Board, and Executive Branch. The staff writes articles and editorials, as well as produces the final layout and distribution of the newspaper.

Clubs and Activities

Key Club

The Key Club is a volunteer organization open to students in all grades. Members are strongly encouraged to volunteer regularly at a site of choice. Students have volunteered their time at local nursing homes, hospitals, and libraries. Volunteer coordinators from different organizations outside of school have been invited to the weekly meetings to talk about volunteer experiences. By the end of the school year many members will have completed at least thirty hours of service.

Interact

This club is the high school branch-off to the Westwood chapter of Rotary International. It is committed to community service at the local, national and international level. Students in this club have participated in fundraising and book drives benefiting group such as the Oglala Indian Reservations and the Gift of Life Program.

Literary Club

Lit Club meetings are used for informal discussion about books the members have read. Typically, the group selects books and follows up the discussion. These discussions pertain to the book but also include current event issues. Books read in the past include The Talented Mr. Ripley and The Taming of the Shrew. We would love to have more bibliophiles and savants in our midst.

Math Team

Brief Description: This group consists of 10 central members and additional alternates, all of whom compete once monthly for five months with other schools in the league in afternoons of mathematics, amusement and food.

Clubs and Activities

Mock Trial

Mock Trials is an organization that competes in a trial with other schools. Every School across the state gets the same trial to prepare, and each school prepares different sides. The two schools go to a courthouse and conduct a real trial. The team with the most total points at the end of the trial wins. For more information call either of the Mock Trial contact people.

No-Parentheses

"No Parentheses" is WHS's annual literary magazine. Each year, students in any grade are allowed to submit poetry, artwork, and short stories that will be published for reading at the end of the year. These pieces of work are then reviewed and selected by your peers for the book. Don't be shy! Everyone has a fair chance at getting published. Please help by joining the editing and review team.

Spectrum

Spectrum was created a few years ago at WHS in order to recognize differences among students and to increase tolerance for diversity, specifically around issues regarding people's sexual identities. Although the group serves at the high school's gay/straight alliance, its focus is not solely on differences of sexuality. This group works toward increasing the level of respect for diversity among students and within the general school community, by working to minimize derogatory language used to put down certain groups and dispel myths about common stereotypes. We work with other groups at the high school to sponsor programs or events such as Dances and field trips.

Peer Educators

Peer Educators is a group consisting of 10-12 graders. They provide educational programs to middle and elementary school students. Their mission is to educate fellow students about issues they face daily, social situations, responsible actions and respectful behavior. Peer Educators act as role models and people to whom fellow students can talk about their issues.

Clubs and Activities

Youth Alive

Youth Alive is a school Bible Study. Students from any grade may join as well as any teacher.

Unity

Unity is a club devoted to encouraging students to voice their opinions and concerns about diversity. Members meet to discuss ways in which WHS can be better exposed to different levels of diversity, most notably through Unity's annual Diversity Day.

Westwood Outdoor Club

The purpose of this club is to participate in activities in the outdoors, having fun learning new skills, providing leadership, interacting with youth peers, team work and promoting awareness of the environment. The Westwood Outdoor Club is a youth organization managed by its membership and sponsored by the Town of Westwood, Recreation Department. Crew activities include camping, hiking, canoeing, rock climbing and environmental activities. Membership is open to all young adults of high school age who live in the town of Westwood from grades 9 to 12.

Westwood Wire

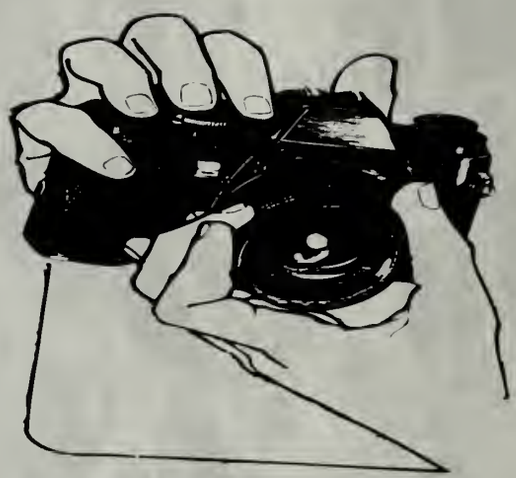

The Westwood Wire (formerly known as the Walking Octopus) is WHS's student newspaper. The newspaper is printed by the Hometown weekly and circulated throughout the community. The newspaper publishes articles on a wide range of subjects, including school news, upcoming WHS events, sports updates, music and movie reviews, editorials and student profiles. Students in grade 9-12 write, edit and photograph for the newspaper. Any student with an interest in journalism, writing, or photography is encouraged to contribute. No previous experience necessary. This is a great opportunity to learn about journalism, voice your opinions and become published.

Virtual High School offers the students of Westwood High School a unique opportunity to broaden their horizons with a vast array of courses that they would not have access to through the curriculum at the high school. The courses available to the students of VHS span so many topics that we could not even begin to list them.

VHS allows students to learn in a setting that is very different from the typical classroom, as well as exposing them to the Internet in a very well guided and informative manner.

VHS is a safe educational forum that allows its students to reach far beyond the walls of their high schools in the pursuit of educational excellence. Students can sign up to learn what they want to learn; this alone is a big motivating factor when it comes to student's achievement. Students are introduced to courses on topics that they find intriguing like DNA technology or Bioethics. The list of available courses in all subject areas is impressive.

The Internet becomes a classroom, teaching students valuable technology skills that they will need to succeed both in college as well as life the real world.

ABILITY TO LOOK AWFUL ALL WEEK IN PRACTICE BUT PLAY WELL ON GAMEDAY: ENTIRE TEAM

With high hopes from the start, we soon found ourselves in last place at 0-2. The Vineyard came in fresh off a Super Bowl bid, and we hung with them until the 4th quarter letdown. Week 2 came with Hop-Town at home and once again our 4th quarter play haunted us. Immediately after the loss, Coach Hallion delivered an emotional speech directed towards the seniors telling the team to "Stop the Bleeding". Week 3 came around and we finally played Westwood Football in a win over struggling D.S. Then came Week 4 and we clawed our way back to .500 by clocking the Clockers. Week 5 brought TVL powerhouse Millis (4-0) to our home field, setting the stage for an upset. Millis stuck it to us early by driving down the field, scoring in just three plays. Our strong defense kept us in it until the end, making a goal-line stop on the two-point attempt to cap off the upset and send a forceful message to the TVL. We rolled into Week 6 against Medway and found no trouble running our record to 4-2. Week 7, we arrived in Medfield expecting the bonfire burning. Even without the fire, we still ruined their homecoming, 30-6, keeping the 33-year streak alive. Our Super Bowl hopes faded by witnessing a Millis loss to Hop-Town the night before (thanks a lot, Millis). Despite the disappointment, the non-league Wayland game ended in dramatic fashion. In the seniors' last home game, we pulled off the W in the first-ever overtime game in Westwood Football history. The win game us momentum into the league frontrunner, Bellingham. Over the years Bellingham has emerged as an intense rivalry. It was "Friday Night Lights" at their house. We came out of the gates quick, heading to the locker room with a 19-6 lead. We thought we had the Blackhawks, but let this one slip away in an overtime loss that sent Bellingham to the playoffs. Our winning streak ended, but we had one last stand on Turkey Day. Holliston came in at 2-7 but gave us a run for our money early. We kept fighting until the end like we did all year long and pulled off the victory. It was a great year for us. We could've packed it in early, but instead we showed everyone what Westwood is all about - finishing 7-3, the best record in four years.

Most memorable Meet: Doing laps around Franklin Park blaring the Mario Theme.

Captains: Justin Obey, John Sharry, and Andrew Carlson

Tim Jim Grim: Always loved Basketball more than Cross-Country. Cross Country was something to do for him and once Basketball started he quit.

Mike O'Toole: He always tried really hard. Gave it his all. Never gave up. Truly loved Cross-Country.

Ben Bynum: Always wanted to practice with the girls' team. (Not a bad thing.)

Ian Brown: Ian came out this year in search of a new sport after a recent frustration with soccer. At practice Ian worked hard and as a result showed great improvement towards the end of the season.

To the team of 2002, Do it for Johnny!

We won our first meet against Hopkinton and we lost five meets. Going into the season we were expected to do well on account of two outstanding runners, Greg Scanlon and Andrew Carlson. Unfortunately Andrew injured his leg in the first meet.

MOST MEMORABLE GAME- Seeing as our record was 1-11-6 can you guess which game was the most memorable? After our first meeting with Ashland that we lost due to a fluke stroke, we were out for revenge and our first win. Mad team spirit pushed us through, would have been nice to have won more then one.

BEQUEST TO NEXT YEAR'S TEAM-Win. Just win; make all of the ties wins, (DS, Braintree, Medway, Medfield...)

Field Hockey

In a nutshell, we won a single game; it's not our fault. It's not that we didn't work hard....cuz we definitely did our share of running...its not that we weren't motivated...cuz we just didn't want to wear the football jerseys...its just that we had to wear goggles this year

Camp hallway dancing, below-zero senior all-star game, changing the circuit (and fighting about it), dying Puck, helluva good, no Saturday morning practices, Maruta, barking, mother-daughter game, Jamie's singing (enough said), LJ's cookies, babying Morgan, Jamiee B's amazing tying goal in the last game against Medfield, Jeanne's Martha Stewart apples, Katie's amazing drive, Frebreezing jerseys

This season was a memorable one. We knew at the beginning of the season that if we made tournament that we would be playing in division 2. The season started off well with a really important tie versus Holliston. There was one week in October that we had a let down, losing to both Medfield and the infamous Fontbonne game, where Christine thought she was tougher than the goalpost. The rest of the season went well, with many wins, the only loses coming to Holliston and Medway. We made tournament, only to find out we had to play perennial division 2 powerhouse Duxbury. Although we lost we left with our heads held high because we had an awesome season that we will always remember.

Mel: most likely to get beaten on by the other team,
Caryn: most likely to save our butts multiple times a game and get absolutely no recognition,
Audrey: most likely to find our team in a magazine and best manager,
Christine: most likely to punch a goalpost.

Bus rides with the boys, Gary Burke, Jenn's stories, speedball, spaghetti dinners, Candie, fruit fantasies, Allison's mom the doctor, long runs, Niles, I love it when you call me big poppa cheers, the sad second effort at toilet papering, Melissa's "kids," Dunkies runs, Gav's food before games.

Most memorable game: Our most memorable game was our tournament game against Duxbury. Moving up to division 2 was already scary enough, but hearing we had to play perennial powerhouse Duxbury was worse. The first half was scoreless, both teams having several scoring opportunities. The second half started off the same way the first ended. About half way through the second half, Katie Gavin threw the ball to Kristen Kjellman who quickly served the ball to Paula Sheehan. Paula head flicked the ball past her defender and shot a one touch past the Duxbury goalie. With the lead in hand we settled into the game, but we got too comfortable and let Duxbury's leading scorer Brooke Bingham sneak one in far post. With just over five minutes left in the game one of the Duxbury defenders sent a ball into the area. The ball was sent in high and Christine came charging out to get the ball, but Emily was ready to play the ball with her head did not hear Christine and attempted to play the ball with her head. The ball skimmed off the back of her head, over the charging Christine, and into the open net. Although we lost the game we left Duxbury with our heads held high because we showed that no matter what division we were in we were able to compete with the best.

Bequest to next year's team: We leave to next year's team a win against Holliston, a radio that works, long runs, and lots of speedball.

At Least We Didn't Come Home Empty Handed!

We can summarize our season in two words: rebuilding year. We started off our season with a close game against Ashland that went to three games. Unfortunately it didn't end up in our favor. After discouraging losses to the rest of the teams in the TVL we gradually improved and by the time Ashland came around again we were able to put them away for our first (and only) win of the season. With each game we seemed to play better as a team and improve overall, but with such a strong league it was difficult to turn our hard work into wins on the court. Even though we may not have had the best record in the league, we definitely had the most fun, and after all, winning isn't everything, right?

As most can guess one of our most memorable games was the one and only game that we won. We were able to prove we were not the worst team in the league, Ashland was! However, there were quite a few other memorable games as well. One great game was our game against Medway where we were able to play up to the level of one of the top teams in the state. The better teams we played the better we seemed to do!

SOCCER!!

We won some games we lost some games. But the season was more, the season for truth.
Along the way we found the missing link, vanquished Vampires, and got to go to Nantucket. We would call Josh Weinstien Gandolf, and people would ask us why. Cause he is a wizard, is all we would say.

Dave Morrison: Faster than a getaway car, and smother than chocolate, Dave was the soul of the team. "Keepin it real 2417" was his slogan

Brian Macdonald: He's pretty crazy, often seen impressing the fans with his soccer abilities...many crazy.

Josh Weinstien: Josh is a good player, though occasionally he would forget where he was, and what he was doing. Excitement, adventure, a Jedi craves not these things.

Mike Spinnato: Yes, he was on the team

Bequest to next year's team: Wildcat...Wildcat...phew.....I'm gonna go now.

Katelyn Testa- Running Varsity Track for 4 years, and a captain for 3, Katelyn has succeeded greatly in the 600 meter run. Bringing spirit and fun to the team, she was awarded MVP, Tri-Valley League All Star runner up, and Daily Transcript All Star during her Sophomore year. Katelyn has competed in many races at the RLC such as the Coaches Invitational and States. Katelyn also runs the 4x400 meter and 45 meter dash.

Christina Purpura- Running Varsity for 2 years and captain this year, Christina has succeed in the 1000 meter run. By the end of the season, Christina had knocked off large chunks of her PB's and ended the season with an awesome time. Christina also competed at the RLC in Boston. She also ran the mile and did the high jump and brought a lot of talent to our team.

Emily Burton- Running for 2 years, Emily has also brought a lot of talent to our team. Coming from Cross Country the previous season, Emily was always ready to run long distances. Emily ran the mile and the two mile in meets. She also competed at the RLC and always came to meets with support and was ready to cheer.

WW

Fast Girls In Short Shorts

Although we did not win a meet this year, we had a large turnout for the team and numerous personal bests. This was the largest the team has been in four years. Many freshman tried out for the team not knowing what to expect, and found themselves succeeding in events they didn't even think they would try. We had a lot of fun memories this year like running across roads in long straight lines and almost getting killed, running around the gym and pretending it was a 400, continuously dragging out the heavy high jump equipment, sharing tightly packed buses with the boys, and bus drivers who smoke while you are on your way to a track meet! We also had a very close meet against Ashland, almost defeating them!

Emily Davie- Running Varsity track for one year, for bringing a lot of talent and real spirit to the team, as well as her undying dedication. She ran the 300 as well as the 4X4 with a lot of heart. Emily also competed in the RLC in Boston.

WW Bequest to next years team: Run fast, work hard, and beat Ashland!!

Boy's Indoor Track

Captains: Carson Brennan, Dave Morrison, Mark Burton and Steve Small

The 2001-2002 season saw no more success than the team of 2000-2001 if one only examines the team's record. However, the team improved in several areas and has positioned itself to grow into a TVL power next season. Coach Gary Burke was looking towards the future when he began the season as he implemented a rigorous weight training and running work out building the physical toughness of his young team. Seniors Carson Brennan and Dave Morrison provided leadership and guidance as well as setting an example for the younger team members to follow. Strengths emerged in the team as Andres Castro stepped up in the 1 and 2 mile, Mark Burton stepped up in the 600 M, John Engle supplied competitive jumps in the High Jump and Carson Brennan showed off his brute strength throwing the shot put. As a building year the 2001-2002 season was extremely successful and the team looks forward to being a major competitor for the TVL title next year.

Behold The Power H2O

Daniele Menard definitely held up the title of MVP. Not only was she undefeated on the diving board, but she dominated in the pool as well. This year at both South Sectionals and States, she finaled in the 200 Individual Medley and Diving, and was also a member of two A-relays. Daniele is hard working, enthusiastic, and has had a very successful four years.

Katie Bateman had a wonderful season this year, placing 4th in diving at South Sectionals, and 12th at the State meet. Our divers pulled us through in all of the tough meets this season, placing 1st and 2nd consistently. Katie's great attitude and amazing talent will be missed next year.

The Girls' Swim Team had another great season this year. With our third coach in three years, and having no idea who it would be until September, we were a little apprehensive of what this season would be like. Yet we ended up having three great coaches who worked us hard and helped us improve as swimmers and as a team. Despite several injuries and sicknesses, we saw many best times, sectional and state cuts made this season. We defeated our archrival Ursuline, as well as league super-power Notre Dame on our way to a winning season. Congratulations girls!

BEQUEST TO NEXT YEAR'S TEAM: To stay the tight team that is our tradition!

Our most memorable meet was definitely our last dual meet of the season against Notre Dame of Hingham. Going into the meet, we knew it was going to be an exciting one; not only was it the seniors' last meet, but it was against one of the best teams in the league. We knew we could give NDA a run for their money, but we also knew they were a huge team with a lot of talent. We had the advantage of swimming in our own pool and went into the meet focused and ready to swim. We were off to a great start, and the excitement soon grew for we knew our divers were unbeatable. We raced hard until the very end and caught NDA off-guard. When the score was announced at the end of the meet, we could hardly believe it. We beat Notre Dame! Our girls swam great and proved that hard work really does pay off!

The most exciting moment of the season was when the Record Wrecking Relay broke the Westwood record in the 200-yard freestyle relay. The relay was made up of Sean Brunè, Ryan Watson, and Fred Keyo. Joe Chiurri replaced Josh Weinstein as the 4th member of the relay, after he injured his back in a swimming related accident.

Men's Swimming

Missions, ball fights, Lorenz, Chrissy McFritz, Stache, Apponequet coach, Dick Charlie, Record Wrecking Relay, jammers.

The senior squad, which made up the bulk of the team, carried the team. Josh Weinstein, senior tri-captain, led the 100-yard backstroke alongside Justin Obey. Fred Keyo swam the 50- and 100-yard freestyle, amassing eighteen total first-place finishes and eight second-place finishes. Dan Biller swam the 500-yard freestyle and began diving for the first time this year, gaining crucial points in both events. Brian MacDonald, Nick Chahine, and Dan McCusker always performed well in the 100-yard breaststroke.

Captain Tom Reece had an exceptional year. He also had the best attendance, never missing a single practice.

Justin Obey was a power-house backstroker who racked up loads of points, until he was stricken with mono and was unable to swim.

Josh Weinstein was the best butterfly swimmer in the Southern Conference and never lost a single race. As a captain, he helped to unite the team during difficult meets.

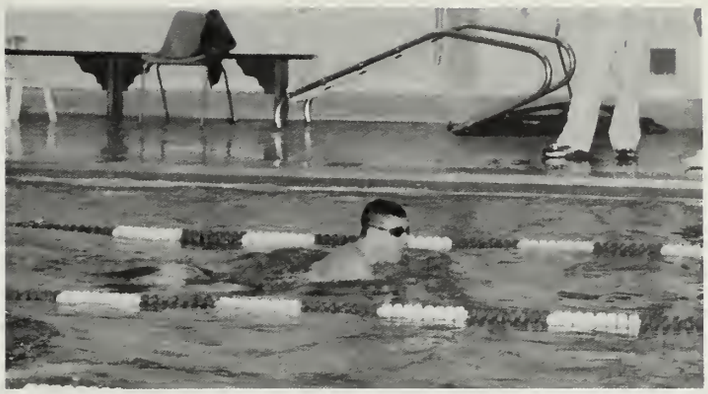

Dan Biller has performed well in the 200- and 500-yard freestyle events since his freshman year. He is one of the few swimmers that have been with the team for all four years.

Fred Keyo brightened the spirits of the team with his positive energy.

Dan McCusker had a great season until he broke his back.

Our most memorable meet was the final dual meet against New Bedford when only seven swimmers were eligible to compete. The rest of the team attended the Patriot's Parade and had a fantastic time. The seven swimmers swam great, but the team still lost 127-43.

The men's swim team was excellent this year, leading the Southern Conference in points and number of good swimmers. Our great season was made possible by breakthrough performances from underclassmen and seniors, as well as great coaching from Coach Chrissy Fritz and assistant coach Missy McBoyle. Under the leadership of the coaches and captains, each swimmer reached his full potential in the pool. The team overcame many obstacles this season in the quest for glory. Coach Chrissy and Coach Missy replaced longtime Westwood coach, John Lonergan, which proved difficult. In the end, both the coaches and the team had a great time and a fun season. The transition from the traditional speedo suit to the more efficient "jammer" suit was a positive development for the team as well. The new freshmen did surprisingly well, earning valuable points. Veteran sophomores, Sean Brunè and Mike Naymie, did well in the 100-yard freestyle and the 500-yard freestyle, respectively. Newcomer Jeff Andrew slayed the competition in the 100-yard butterfly. Junior Joe Chiurri got points, too.

Bequest to Next Year's Team

1. The title of J.P. and the throne goes from K.P. to Mike Naymie.
2. The Durfee title goes from Dan Biller to Stache.
3. The Green Jacket goes from Aaron Kolodny to Mike Naymie.
4. The title of Slayer will stay with Jeff Andrew.

Congratulations

class of 2002

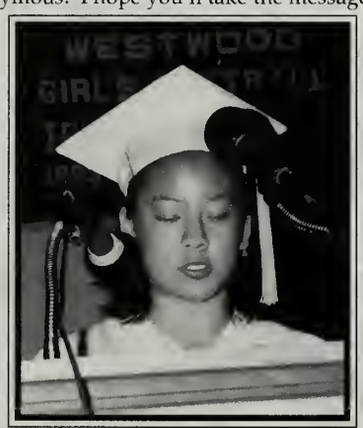

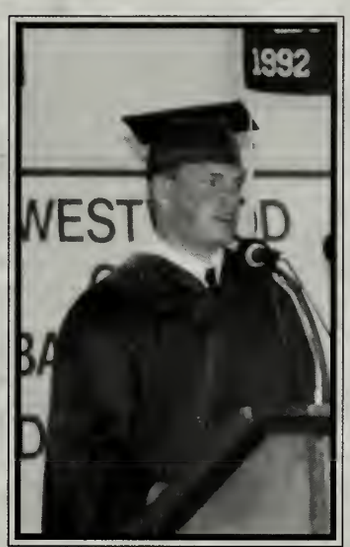

Welcome - parents, teachers, friends, relatives, and ladies and gentlemen of the Class of 2002. When first writing my speech, I was asked to steer it away from some of the more common clichés, so today I've decided to talk about building houses, because life - is a house. From the moment we get cleaned off from our mothers' wombs, we begin to construct our own, metaphorical house, which really is just a representation of the beliefs we foster and the lifestyle we choose. During our years at Westwood High, we've constructed for ourselves a general blueprint for this structure. Our classes, our extracurriculars, and our friends have all provided us with ideas for how we will want to build the "house" that represents us. In the next few years, in college or on the job, we will begin to actually build these houses, if we haven't already - deciding for ourselves the size, color, and style that we are most comfortable with. Even 40 years from now, we can still rebuild, revise, or make additions to this house, although perhaps the transition may be more difficult or more costly with so much of the house already established. And that's the way it is with life - we keep getting chances to renovate, but these second chances are rare and often come with quite a price. So before we build too much of it now, consider while it's still early - what does your life-house look like now? What do you want it to look like? Just a few months back, I was helping out at the Ellis Nursing Home, and I had the opportunity to talk with one of the elderly gentleman residents who was just adding the finishing touches to his life-house. And we talked about the basics, you know, college, school, friends, etc. He was joking around, saying that he had a wonderful grandson "just my age" who he was sure would be a perfect match for me. And then he asked if I felt ready - if I felt like I had done everything I needed to do in these first 17 years of life, if I felt like the timing was appropriate to move on and did I have any regrets? But I never even answered his question, because he kept right on talking - to himself, I think - about how ready he was to move on. And it startled me - how candid he was as he spoke about himself coming to an end of a period. He said to me: "As long as I haven't been a waste. I would hate it if it didn't matter if I had come and gone or not." And I thought about that. And I ask you to think about that. We have all come to Westwood High School, and now we go - and has it truly mattered? Did we make it matter? Think about what your own presence here at WHS has contributed - because all of us were given the chance when we stepped into this school. My point here is to challenge you to reflect on what you have done so far, and without regrets, I urge you to take this reflection and bring it to wherever you go in the years that follow. The dedicated faculty and community here in Westwood have given us so much, and all of us now have the responsibility to take these tools and find a way to give back. Our method of giving back may be unique to all of us, so decide for yourself - What is your purpose? What are you here for?

As all of us depart from Westwood High to build our "life-houses", keep in mind also that there will be obstacles - maybe, as we attempt to build our metaphorical houses, the metaphorical paint store will mess up our order and send the wrong color paint, or the metaphorical hardware store will deliver the wrong wood measurements. These obstacles will come. But we are never powerless. Take the ugly color of paint and use it to paint a funny mural in your basement; use the wood to build a shed in your backyard. When it rains at Crane Beach on senior beach trip day, Emily Frost, start a game of Red Rover. My message is this: always build on your obstacles instead of wallowing in them, and I think you'll find that the "life-house" you are trying to build will be just as beautiful as ever. To illustrate this, I want to leave you with a poem called "the Oyster", author anonymous. I hope you'll take the message with you wherever you go, whatever you do, in the years to come. Here it is:

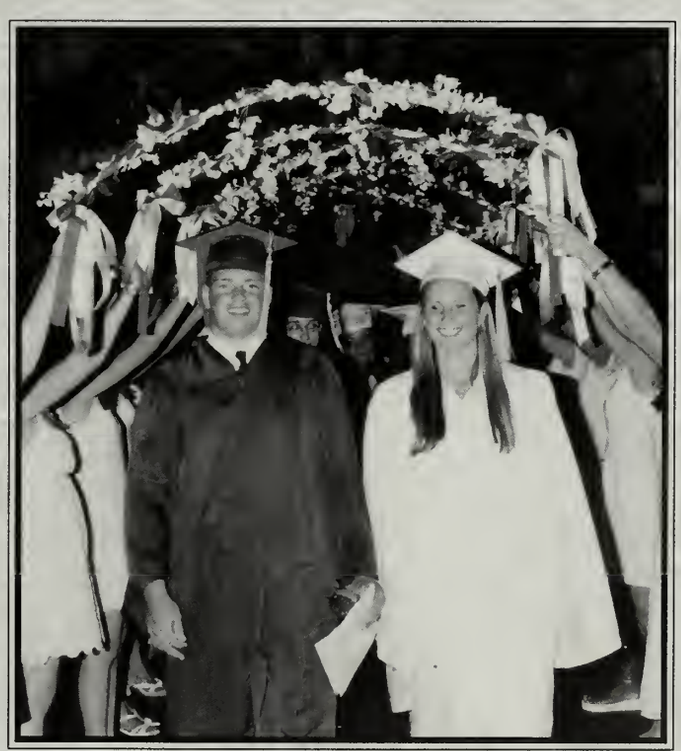

There once was an oyster,
Whose story I tell,
Who found that some sand
Had got into his shell.
It was only a grain,
But it gave him great pain.
For oysters have feelings,
Although they're so plain.

Now, did he berate
The harsh workings of fate
That had brought him
To such a deplorable state?
Did he curse the government,
Cry for election,
And claim that the sea
Should have given him protection?

No - he said to himself
As he lay on a shell.
Since I cannot remove it,
I shall try to improve it.
Now the years have rolled around,
As the years always do,
And he came to his ultimate
Destiny - stew.

And the small grain of sand
That had bothered him so
Was a beautiful pearl
All richly aglow.
Now the tale has a moral;
For isn't it grand
What an oyster can do
With a morsel of sand?

What couldn't we do
If we'd only begin
With some of the things
That get under our skin.

It's been a great honor to speak to all of you today.
I want to thank all the faculty members of Westwood High who have worked so hard for all of us, and I wish the best of luck to all the members of the Class of 2002.

Fred Keyo

Hats off to you Fred!
Congratulations to you and to all the graduates of 2002!
Love, Dad, Mom, Maureen & Erin

Austin Curran

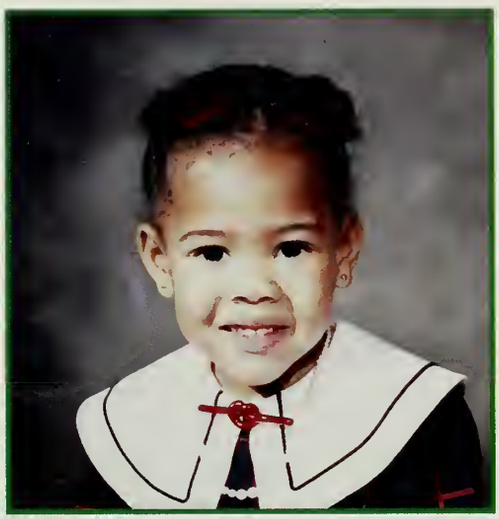

"May the road rise to meet you, May the wind be always at your back, May the sun shine warm upon yourface, The rains fall soft upon your fields, And until we meet again, May God hold you in the palm of his hand."
Love Always,
Mum, Fordy, Lilla and Noodle

Tyana Morgan

Tyana, in your childhood fantasies, a jungle gym would be your throne, you were queen of all your surroundings and everyone obeyed your wishes. These imagined experiences are apart of growing up. Now the rewards of your success are real. Congratulations on your accomplishments and remember we are always there for you.

Love,

Mom and Dad
